## A WONDERFUL WAR.

No war of the Nineteenth century, not even our civil war or the Napoleonic wars, was as far-reaching as the present war in the far east. No war of the nineteenth or any other century directly affected the lives of so many people, for one-half of the world live in countries that lie on far eastern waters.

The rise of Japan to the front rank of the nations of the world is not all, although that is a great achievement. The integrity of China is involved in this war, and so is her subsequent rise to the Japanese standard. The Japanese are not a whit smarter or braver than the Chinese, and the rise of the Chinese under the leadership of Japan may be rapid. This means that the people of the far east are to live their own destinies, as they should indeed be able to do. They are not to become Englishmen, Germans, Frenchmen or Russians. They are to remain Mongolians, living and working as Mongolians prefer to do. This will be better for them, and probably for the world's general good.

But great as all that is, it is not all there is in this war. This war has exposed the weakness of the Russian autocracy—a system that persistently and intentionally keeps 130,000,000 of people in ignorance. Dictator Trepoft has already asked the high schools of Russia to increase their tuition fees in order to keep the sons of the poorer Russians out. This is Plachism, and the Russian people intend to drive it out, and gain from the present war a constitutional government.

## IMMIGRATION PROPOSITIONS.

If, as is reported, President Roosevelt proposes to put before Congress propositions intended to restrict immigration, he should be opposed by every representative from the south who desires to see this section filled with whites—who desire to see our untitled lands owned by whites. It is really a choice between negro proprietorship and white proprietorship, for the unproductive lands of this section, assessed each year for taxes, cannot much longer be carried as they have been.

It is said the President will propose either a monthly limit upon immigration or else an increase of the head tax. The latter is now \$2, and some propose to increase it to prohibitive figures. It is believed that the President is inclined to favor the latter proposition.

Neither proposition should be accepted by Congress—at least not until the south and west are fully occupied. What is needed is a change in the landing point in this country of the vast tide of newcomers. Up to April 1 in this fiscal year 650,377 immigrants had come in, and the indications are that by June 30 a full million will have come in—a number unprecedented in the history of the country. Instead of landing the vast number where they are not wanted, and where owing to their poverty they largely stay, let them be landed at New Orleans, within easy reach of the cotton states, and from which they can be carried by water to the heart of the middle west. We have the power to say where they shall be landed and the New York steamship lines can be compelled to carry them to New Orleans.

It is a question—this business of where to spend the summer. Still it would not be so difficult of solution if spending the summer were not equivalent to spending money. The Ball Room boys will no doubt pass the season impressively but not every one is blessed with their resources. However, if you are getting \$6 a week it is not advisable for you to visit Newport until your salary is raised to \$10.

Faison Journal.—There is no reason why an up-to-date glass factory could not pay in New Hanover. Her sister county will prove the good result of a test farm.

## JAPAN'S TERMS.

Now that it is settled—absolutely determined—that plenipotentiaries of Japan and Russia are to meet, armed with plenary powers to bring back peace the all absorbing question is What will Japan demand. For victorious Nippon is in a position to demand a great deal and Russia is in a poor position to do much refusing.

It may safely be assumed on the light of Togo's wonderful victory that Japan insists, in the first place upon security in the future, and upon indemnity, in the second place for losses incurred in a war forced upon her by Russian greed, insolence and craftiness.

Whether the first of these conditions will involve the cession of all the territory east of Harbin and south of the Amur river does not seem to be clear. The Amur was the bound of Russia before she became aggressive in the Far East. The Liao-Tung peninsula and Korea, both of which were wrested from Japan ten years ago by a combine formed by Russia, will of course pass into Japanese hands, there to remain forever.

The cost of the war has been immense, and the cession of territory in high latitudes, and the railroad south of Harbin and perhaps east of it will not meet Japan's war bill. There must be indemnity, and the size of it is puzzling the students of the situation.

Heretofore indemnities have generally been paid as a means of regaining conquered territory but there is really no recognition of rule in determining war indemnities. Germany took a billion of dollars from France thirty years ago in order to cripple the latter so that she could not soon resort to a war of revenge. The real rule is the payment by the conquered nation of all losses incurred by the victors, and it is not at all improbable that Japan will insist upon an indemnity of that nature. If so, the indemnity feature of the negotiations will be difficult and perhaps embarrassing. The chances are however, that Russia will accept the time offered by Japan as the lesser of two evils.

All nations are calling upon Japan to be moderate and reasonable, but what one of the entire number standing in Japan's shoes, would be moderate and reasonable? Not Germany, for she terribly taxed France. Certainly not Russia for she took \$130,000,000 from the helpless Chinese. What nation would? Simply not one, and Japan will probably do as others would do under like circumstances.

## SCIENCE AND THE SOUL.

Science may never be able to discover and analyze the soul, but in a remarkable case in New York the soul has been awakened in a human body by simple surgery.

Jack Hany, although 16 years old and well developed physically, was until two months ago mentally an infant, possessing neither memory nor reasoning power. His parents had years ago resigned themselves to the cruel belief that Jack was a hopeless imbecile.

The other day a physician discovered that Jack's brain was not diseased, but that it was not properly connected with the spinal cord, and all that would be required to restore arrested development would be to effect the necessary union of cells. By osteopathic manipulation in this being slowly accomplished and the light of reason is dawning upon the life long confined in the dark.

The boy is rapidly learning the alphabet, finds his way about alone and takes great delight in the unfolding of the world that was dead to him. The mind and soul born sixteen years after the body are becoming normal.

Science has penetrated the veiled mysteries and solved one of the deepest secrets of life.

For the man who has unbalanced or shattered his brain by wrong living there may be no hope. But if the innocent little ones may have their minds and souls opened to the light science will have done incalculable service.

## A Cough is Only a Symptom.

A cough is not a disease but a symptom of disease. A cough always indicates that either the throat or lungs are affected. When the mucus lining of the throat or lungs becomes inflamed the irritation causes coughing. Don't neglect a cough. It may be the symptom of serious throat or lung disease. Rydalen's Elixir kills the germs that cause the trouble, soothes the irritated mucous membrane, gently stimulates the nerves that control the respiratory organs and thus helps nature to speedily restore normal conditions and healthy action. Sold by Palace Drug Store.

Mrs. James Brown Potter seems to be up against the hard times.

## Stomach Trouble Causes Heart Trouble.

Heart trouble is almost always caused by stomach trouble. The stomach leads to digest all the food, and the residue ferments, forming excess of gas which distends the stomach, causing a pressure on the nerves and arteries that lead to the heart. This causes the heart to palpitate or skip a beat occasionally, or both, which is usually very alarming, causing grave apprehensions. Rydalen's Stomach Tablets will prevent this trouble. They digest the food and prevent gas from forming in the stomach. If there is no gas in your stomach your heart will not trouble you. For sale by the Palace Drug Store.

Let us hope no one will put lead on the wings of the dove of peace. The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and natural that you do not realize it is the effect of a medicine. For sale by Higgins Drug Co.

## LEE THE VETERANS' CHOICE.

HE IS UNANIMOUSLY RE-ELECTED LEADER.

Report of Committee On History Adopted—New Orleans was Selected as Next Place of Vets Meeting.

Louisville, Ky., June 15.—The United Confederate Veterans to-day re-elected their old officers as follows:

Commander-in-Chief, Lieutenant-General Stephen D. Lee, Mississippi; Commander Trans-Mississippi Department, General L. W. Cabell, Texas; Commander Army of Tennessee Department, Lieutenant-General Clement A. Evans, Georgia; Commander Army of Northern Virginia Department, Irving Walker, South Carolina.

New Orleans had little difficulty in securing the convention for 1906. Nashville made a fight which surprised the convention, but the sentiment was strongly in favor of the Crescent City.

Fraternizing greetings were read from the State encampment of G. A. R. of Indiana, in session at Madison. The greetings were only moderately cheered, and one delegate on the platform with the remark that there "is getting to be too much of this fraternizing" took his hat and departed.

Other interesting reports submitted during the day were those of the history committee and the battle abbey committee.

The spectacular feature of the reunion—the parade of the remnants of the South's once great army—will take place to-morrow, and it is expected that the number of men in line will exceed that of any recent reunion. The line of march will cover a distance of nearly three miles.

## Forced to Retire.

St. Petersburg, June 19.—General Linevitch, in a dispatch to Emperor Nicholas, dated June 17, reports that a Russian turning movement forced the Japanese to retire from Iulanzitz, June 14, after burning their supplies. Another Russian force June 15 advanced from the valley of the Tsin river to the village of Yem Loungow, pushing back the Japanese advance posts. The same day the Russian cavalry, occupying Nanshanthenzhi retired slightly northward.

## Dying of Famine.

is, in its torments, like dying of consumption. The progress of consumption from the beginning to the very end is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Carloss Md; "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery which promptly and perfectly cured me." Prompt relief and sure for coughs, cold sore throat, bronchitis etc. Positively prevents consumption. Guaranteed at J. H. Hill & Son's drug store, price 50c and \$1.00 a bottle. Trial bottle free.

## June weather brings out all the June bugs, and their name is legion.

## Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Cherokee but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion and suffered from dreadful backache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by J. H. Hill & Son's drug store, price 50c.

## Pat Crowe's appearances are shrewdly timed.

No Secret About It. It is no secret that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils etc. nothing is so effective as Backen's Ointment. I didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at J. H. Hill & Son's drug store.

## Just What Every One Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by Higgins Drug Co.

## By the Tonic Route.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small easy to take and easy to act—a safe pill. Mack Hamilton, house-clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by MacKay's Pharmacy.

The vaudeville stage yawns for Nan Patterson.

## A Destructive Fire.

To draw the fire out of burn, or heal a cut without leaving a scar, use DeWitt's Witch Hazel Salve. A specific for piles. Get the genuine. J. L. Tucker, editor of the Harmonizer, Centerville, Ala., writes: "I have used DeWitt's Witch Hazel Salve on my family for Piles, cuts and burns. It is the best salve on the market. Every family should keep it handy." Sold by MacKay's Pharmacy.

## A HOPELESS FIGHT.

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment fully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of the kind. Treatise with instructions for home treatment and any advice wished, without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

## Rydale's Tonic

a new, scientific remedy for the Blood and Nerves

## HAVE YOU EVER THOUGHT

How many hours out of each week could be saved by yourself, your family and your team, by the telephone? Have you ever calculated how many minutes can be saved in case of business, sickness, or emergency? Have you ever thought of the dollars at night paid, if you were only in less connection with the market?

Can you conceive of the pleasure to be derived from having in your home immediate communication with the homes of neighbors and friends though situated miles away?

The telephone will pay for itself by getting better market prices.

It will save several dollars every month by avoiding needless trips to town.

It will take and deliver telegraph messages immediately without extra expense.

It will keep you informed on weather conditions upon inquiry.

It will cure aches instantly when medicines break down.

It will do the visiting and make social calls without the trouble of "dressing up" and taking a long, dusty, heated or freezing ride.

It will get a doctor on a moment's notice and maybe save a loved one's life.

It will get election returns as soon as they are in.

It will keep away insistent tramps and prowling burglars.

It will keep the boys on the farm.

It will make home happier, brighter, better and more delightful in a thousand different ways.

Progressive farmers living in the country are installing telephones in their homes, and in the near future every cultivator will have a direct means of communication with the outside world.
